WASHINGTON, February, 1879.

DEAR SIR: When goods are sold on credit, three things must be estimated: First, losses; second, expense attending the keeping of accounts and the collection thereof; and third, in-

Keen CASH BUYERS are no longer willing to contribute to this estimate, and hence the time has arrived when one is compelled to choose between an ALL CREDIT and an ALL CASH business, and in view of these indications, I am inspired to make the following changes in the conduct of my business, commencing MARCH 1, 1879:

First, TERMS CASH: Second, CHEAPER TAILORING: and Third, NO FURNISHING GOODS.

To accomplish the last I shall offer my Furnishing Goods at such prices as will insure their The second change will be immediate on the 1st prox., and I have made arrangements to

The second change will be immediate on the 1st prox., and I have made arrangements to get up garments to measure in good style at prices much lower than formerly.

READY-MADE CLOTHING will be the prominent feature in my business.

To make the first and whole a success I propose to continue the popular system of marking all articles in plain figures and selling for ONE PRICE ONLY, with a uniform PROFIT OF SIX PER CENT., estimated upon the cost of distribution—that being remuneration for my skill, capital, and labor—and giving all buyers the benefit of all bargains in my purchases. This plan has all the advantages of CO-OPERATION, without its attendant risks, and it will readily be seen that this can only be accomplished by the adoption of the ONE-PRICE, CASH SYSTEM. I feel that further argument would be unnecessary to commend these changes to your approbation, and, hoping to continue in the future the pleasant relations of the past, I subscribe myself, yours, truly.
